- The precursor of the theatrical success of the film "Chico Xavier"
- Distribution in Brazil by FOX
- An inspiring and unforgettable movie that will touch the minds and hearts

Synopsis

At eighteen years old, Bezerra de Menezes leaves the northeastern Brazil to Rio de Janeiro in order to study in Medical School. At this time, Rio was the capital of the Republic, and he was elected congressman in various legislatures, becoming one

of the most prominent defenders of abolitionist ideas and, ahead of his time, started to raise environmental debates.

But what brings him greatest recognition was his anonymous work on behalf of the needed. Being known lovingly as the "Doctor of the Poor".

Whether as a politician devoted to humanitarian causes or a physician known for never denying relief to those who knocked on his door, Bezerra de Menezes becomes an important spiritual leader and remains alive in the hearts of millions of Brazilians. A life history marked by fraternal love and charity. Bezerra is also known as the Brazilian Allan Kardec.
